 Cairo - Minya

summary

Highly skilled Web Developer specializing in front-end development with extensive experience in the full development lifecycle. Proficient in building responsive, high-performance web applications using modern frameworks like Next.js and React. Strong background in project management, ensuring seamless client communication and timely project delivery

experience

[freelancers]

January [2020] - continuous

- As a freelancer, my practical experience involves closely collaborating with development teams to ensure the smooth coordination and interaction between the front-end and back-end components of a project
- This includes effectively managing databases and integrating them with the backend to provide a seamless and integrated user experience.
- I have a strong technical knowledge in areas such as HTML5, CSS3, Bootstrap, JavaScript, Angular, PHP, and SQL Server
- Using advanced design techniques, I strive to create visually appealing and functional websites and applications that meet the needs and expectations of clients

I worked in administrative affairs during my military service in the Computer and Electronic Services Department

[25/11/2021] **November** [25/11/2022]

- During my period of military service in the Computer and Electronic Services Department, I had the opportunity to work in administrative affairs. In this role, I was responsible for various tasks such as preparing payrolls for the unit's employees and official documents. This required me to meticulously gather and organize data, ensuring accuracy and timeliness in payroll processing
- Additionally, I was entrusted with the responsibility of preparing monthly reports. This involved analyzing data and presenting it in a clear and concise manner, highlighting key findings and trends. I honed my skills in data analysis and reporting, ensuring that information was accurate and impactful
- Throughout my time in administrative affairs, I maintained a high level of professionalism in the office. I recognized the importance of utilizing various software applications, such as Microsoft Word, Excel, and PowerPoint, to enhance my productivity and produce high-quality work
- In summary, my experience in administrative affairs during my military service provided me with valuable skills in payroll management, document preparation, report generation, and data submission. I developed a strong sense of professionalism in the office and became proficient in

using essential software applications. This experience has equipped me with the ability to handle vital administrative tasks efficiently and effectively.
